Availability: full time · remote or on-site

Architecture student at the National University of Córdoba in the thesis stage, licensed Building Technician (Maestro Mayor de Obras) and holder of a Diploma in BIM Project Development from UTN. I handle the full cycle of a BIM project: initial planning, BIM Execution Plan (BEP) development, document management and 3D modeling with all project information. I am looking for a role where I can apply this training and keep growing professionally in the field.

WORK EXPERIENCE

Freelance Architectural Designer Feb 2024 - Present

- Design of houses, duplexes, retail spaces and renovations, from concept design to construction documents.
- Revit modeling and production of construction drawings: plans, sections and schedules.
- Model setup and organization following BIM workflows: view templates, sheets, phases, filters and families.

Internship – Grupo Astori, Córdoba Feb - Jul 2026

Professional Practice course, FAUD – UNC

- Site visits to ongoing projects to follow the erection of precast concrete structures.
- Field surveys of dimensions and completed work, checked against the project documents.
- Progress reports for the engineer in charge.

EDUCATION

FAUD – National University of Córdoba 2021 - Present

- Architecture - Student in thesis stage

National Technological University (UTN), La Plata Mar - Oct 2026

- Diploma in BIM Project Development

Provincial Technical School N°1 Mar 2014 - Dec 2020

- Degree: Building Technician (Maestro Mayor de Obras)

CERTIFICATIONS

International Executive Architectural Program – Corbis Sep - Oct 2026

- Project Delivery, construction documentation, quality control (QA/QC), Bluebeam Revu and Code Sheets.
